Jean's Story

In 1982, Dr. Jean Griswold founded our company and helped pioneer an entire industry.

Dr. Jean Griswold started Griswold after her husband informed her that an elderly woman in their parish had died of complications because she had no support system for care. Jean felt this could have been an easily preventable tragedy and was driven to act.

She was a true visionary, establishing one of the most successful non-medical home care organizations in the country despite her Multiple Sclerosis diagnosis. Over 40 years later, her legacy lives on across 170 locations in 31 states!

Jean was an extraordinary leader and remains an inspiration to all who hear her story. Her values live on in Griswold today.

Live assured that your loved one is being cared for so you can go on about your own life without feeling the weight of worry.
